

## Generator Hire UPS Hire

When failure is not an option™

## Generator Hire UPS Hire

Power Continuity Systems are an industry leader in Generator Hire and UPS Hire within mainland United Kingdom.

All our Generators and UPS come fully serviced and maintained ready to protect your site. PCS have a wide range of 'ready to hire' equipment available with available sets from 50kVA to 1275kVA.

Whether you need a Generator or UPS for short-term hire or long-term hire, Power Continuity are the people to call.

**Any Power  
Anywhere  
Any Time  
Any location.**

**Whatever the power and wherever you need the power...**

# Temporary Power Protection

PowerContinuity Systems can provide your critical operations with temporary power protection. Whether you are looking for a small system to support an office, a UPS to support the demanding applications of a particular key site or a generator to protect your 60,000 seat concert, we can supply a temporary power protection system to fill your urgent needs.

And backup times?

Our systems can support your systems for minutes or hours or days. You can have renewed confidence in your business continuity, knowing that you have reliable temporary systems in place ready for any likely mains power disruption.

# UPS Power System Hire

Our containerised mobile UPS units come complete with their own built-in air conditioning units, uninterruptible power systems- ready to go.

Stand alone, clean, seamless power; protecting your mission critical equipment operations and revenue streams. Power Protect the financial bottom line. Don't get caught in a power mire, HIRE !

UPS power Mobile systems from 50 kVA to 1275 KVA with battery autonomy and air conditioning.

## Whenever you need it!

Do you have an emergency now?

Do you have a planned outage?

Need Power Protection to keep operational status 24-7?

We can install one of our UPS Hire modules or Generator Hire Power Systems on your site same day within 12 hours or next day. We **work with you** to get you back **in control** of your **power**.

# Specialised UPS and Generator Engineers

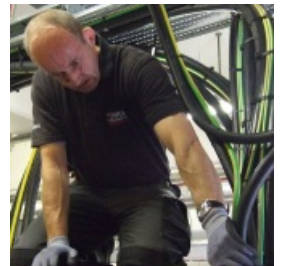

PowerContinuity's specialised UPS and Generator installation engineers can connect the power hire system into your existing power circuits. PowerContinuity offers full project management of your temporary power system solution, from installation to de-commissioning, including call out response.

## Diesel Generator Hire

PowerContinuity Systems can cater for all your power requirements from our large stock of fully maintained and serviced diesel generators, ready to power your events, offices or operations 24/7.

With outputs varying from 50 kVA to 1275 kVA in stock and larger generators available on request and a range of sound attenuating containers providing low noise levels from 80 dBA, we can cater for all your needs, however site specific they may be. **HIRE with confidence.**

Our specialist fleet can site and position Generators and UPS Systems in most locations and terrains.

Our fully comprehensive services include:

- Full planning including survey, plans and schematics, dependant on lead times of course
- Liaison with any applications to planning departments as well as with your local electricity provider
- All ground works, welding and palisade security fencing erection, concrete plinths and earthworks
- Cabling, installation, delivery, positioning and testing of all equipment both at the factory and on site
- Test certification, commissioning and signing off all cabling and UPS systems.

# Location, Location

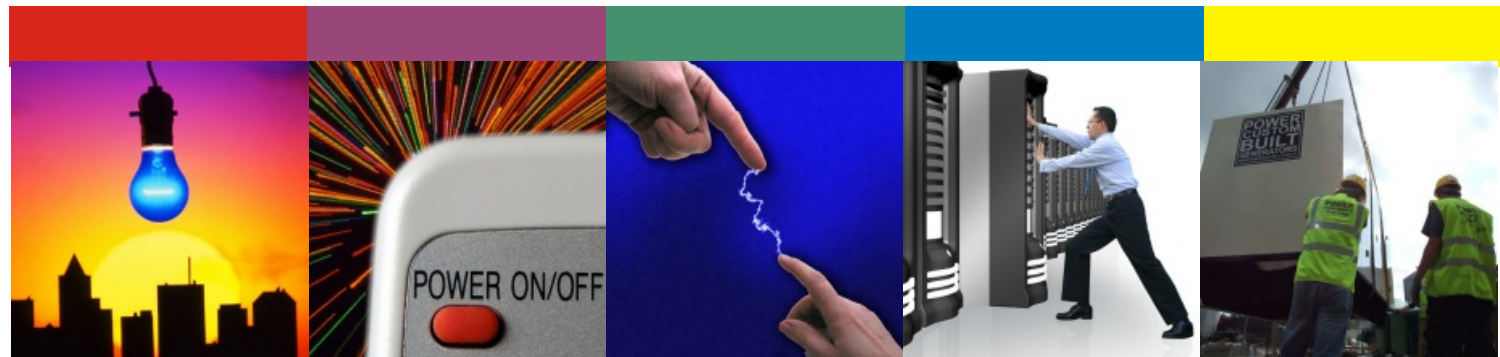

All our hire fleet of UPS and Generators are serviced whilst on your site. PowerContinuity's engineers service the generators and the UPS's including assessing and testing each system to make sure they are in prime condition to take the load whenever there is a power emergency or providing full time power load where there is no grid supply.

You may also want to take advantage of our Emergency 24-7 service the full emergency package so you have emergency access to specialised engineers during the rental period, to fix any issue that may develop on-site.

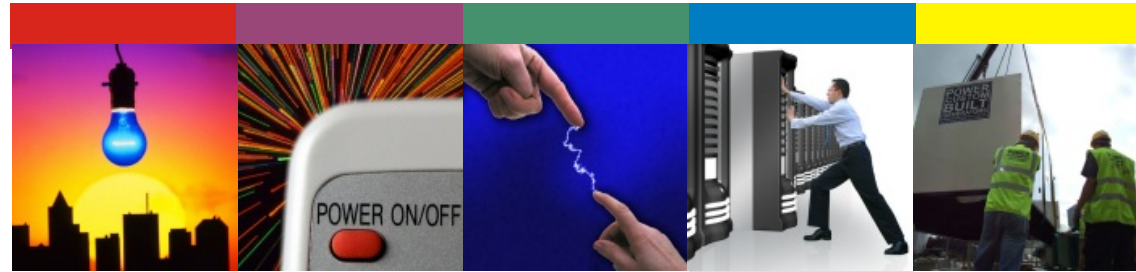

Wherever and whenever you need it - protect your power sensitive critical equipment. Contact PowerContinuity Systems for Generator Hire and UPS Hire, short- and long-term, anywhere in the UK. Our engineers will help you plan your hire requirements. Just Call us we're here to help YOU.
