Location

PowerContinuity Systems designs UPS Installations for Banks, Hospitals, Distribution companies, Manufacturing plants, offices and remote locations.

UPS Installation works are completed out of hours to minimise any risk to your operations.

Out of Hours response All our contract customers have the comfort of a 4-6 or same day response 24/7/365 to site together with our 24 hour helpline. There's always a PowerContinuity UPS specialist engineer ready to help.

Health & Safety

PowerContinuity Systems take Health and Safety very seriously. Our engineers are fully competent and trained in safe working practices to ensure their own safety, as well as that of others attending the installation; this is shown in our industry leading health and safety performance. Before the works commence, we will issue our Safe Systems of Work for the project.

Environmental Responsibility

In this modern age organisations are giving more attention to the impact of their activities on the environment. PowerContinuity Systems stands out from the crowd. Our operations are managed by an Environmental Management System accredited to BS EN ISO 14001 and we are committed to attaining the highest available environmental standards, complying with existing legislation in every aspect of our work. As we find areas where we can improve our environmental policy we constantly make positive adjustments, so we can work in harmony with the environment whilst giving the best service to our clients.
